Experience

Full Stack Developer
2024-06 - Present
Znr Tech

- I have been serving as the Lead Developer at this newly established startup since its inception.
- As a company, we provide services focused on creating corporate identities for brands and developing automation solutions for businesses.
- My primary focus is on automation engineering, where I develop innovative applications to streamline business processes.
- Due to our small team structure, I also take on the role of a Full Stack Developer when needed, supporting all stages of projects.
- I am responsible for building the company's technical infrastructure, optimizing processes, and delivering tailored solutions to meet client needs.

Automation Engineer
2023-07 - 2024-06
YapıKredi Technology

- Developed automation solutions using UiPath and managed end-to-end project processes, from initiation to deployment.
- Completed numerous projects, took on leadership responsibilities, and ensured successful outcomes despite a smaller team size.
- Enhanced communication and people management skills by coordinating with team members and handling project handovers effectively.
- Gained expertise in crisis management by resolving challenges quickly and maintaining project continuity.
- These experiences strengthened my skills in project management, automation, communication, and team leadership.

Software Engineer
2022-06 - 2023-07
YapıKredi Technology

- Gained long-term experience working on CRM systems and contributed to all phases of software development, from requirements gathering to maintenance.
- Collaborated with business units to deliver technical solutions and participated in major projects recognized as key company initiatives.
- Utilized diverse technologies, including Java, React, SQL, Spring Boot, and Angular, while adapting to various frameworks as needed.
- Ensured high-quality development by following best practices and fostering teamwork within a large-scale company environment.
- Contributed to software improvement by enhancing functionality, performance, and overall project outcomes.

Game Developer
2021-11 - 2022-01
FenoTech

- Successfully published a mobile game using Flutter while leading a small team and managing operations.
- Promoted collaboration and innovation by enabling team members to create their own games within the same framework.
- Ensured smooth execution through clear communication, implemented best practices, and enhanced project quality and performance.
- Fostered a positive and creative team environment by encouraging new ideas and solutions.
- Guided the team through challenges, ensuring timely delivery of successful and unique game projects.

Game Designer
2020-06 - 2020-08
Masomo

- Contributed to all stages of mobile game development, from design to maintenance, gaining comprehensive experience across departments.
- Managed projects to completion on time and within budget while maintaining high-quality standards.
- Enhanced user experience through regular updates and optimizations during the maintenance phase.
- Delivered innovative solutions by staying updated on industry trends and technologies.
- Fostered collaboration and smooth coordination across teams, ensuring successful project outcomes.
